The LaFayette Underground You ought to give us credit for letting you post here freely when a similar comment about Dr. Shaw would be removed from the Bebe! page.

The LaFayette Underground That was hardly enough said. That was just a taste of how the typical Heiskell supporter thinks..

I think the citizens of Walker County know more about our intentions and character, even if they don't know all our names, than they know about most of the people and businesses associated with Bebe. You can hardly say we lack transparency when you're working in her office.. You know the kinds of things she does that the rest of us don't know about.

I don't see how you sleep at night.

Joan Wardlaw Fowler Like I said you will not reveal. I rest my case Negative. What a shame to all.

The LaFayette Underground With clear reasoning and logic like that, I don't see how anybody could possibly consider not voting for Bebe and her secretary Joan.

(At least we know she's got the ESL vote locked up.)
