Mr. Johnnie Arnold City Manager City of Lafayette PO Box 89 Lafayette, Georgia 30728

Re: Waste Management / Public Works Director

Dear Mr. Arnold:

Please accept this letter and resume as an expression of my interest in joining the City of Lafayette Waste Management team where 30 years of background and experience in this industry would be required. I am currently attending Covington Theological Seminary where I intend to graduate with honors in 2013. I am very hands on and goal-oriented, possessing a strong desire to succeed, and a record for producing outstanding results both academically and professionally.

I have had the good fortune in my career of working with clients and businesses that presented me with a variety of challenges with increased responsibilities. I have had to continuously prove myself and to identify new ways to make good things happen. In each instance, I have risen to the occasion, meeting and exceeding the expectations of my client or manager with a superior product. Now, while pursuing my undergraduate degree, I am eager to pursue this opportunity to continue what is second nature to me and my family.

I hope you agree my qualifications and experience would make me a valuable asset to this department. I would appreciate the opportunity to show how I might apply my experience and capabilities to the continuing success of your facility. To arrange an interview, please contact me at 770.547.8173 or send me an e-mail to richielwhite@gmail.com.

I look forward to your reply, and I thank you in advance for your consideration.

Sincerely

Richie White

Assisted or managed all areas of our family-owned business

1992 - 1997 U.S. Postal Service Clerk

1987 - 1991 U.S. Army, 25th Infantry Division, Schoefield Barracks, Hawaii Communications Specialist

PROFESSIONAL ACCOMPLISHMENTS

Summary: Began working for my father when I was in third grade during holidays and summers and have continued to assist my father in all aspects of the business. Experienced in all facets of commercial, industrial, and residential waste operations including construction/demolition, frontloader, rolloff, and waste transfer operations. Implemented improvements to processes and procedures and instituted new ways to increase revenue and cut costs. Supervised daily activities coordinating staff, equipment, and resources with the needs of our customers.

PROFESSIONAL ACCOMPLISHMENTS

Maintenance: Realizing the current mechanic/maintenance program was unorganized and inefficient, I suggested improvements in the form of implementation of a Preventive Maintenance Program which led to efficiency and revenue by keeping trucks on the road. This included routine, scheduled maintenance and upkeep of every piece of equipment. Detailed records management for all equipment was implemented. Personal knowledge and advanced computer skills were valuable in locating and purchasing hard-to-find parts at the lowest price.

Employees: Assisted in locating and acquiring the best employees to fill positions while simultaneously striving to create the best work environment possible. This is evident by our employee retention record.

Customer Service: Interaction with customers on a daily basis. Difficult situations were kept at a minimum, diffusing the toughest of situations with a good attitude in a positive and friendly manner. The result was customer satisfaction which equals retention and referrals.

Front Office Operations: Implementation of computer operations from the outdated, handwritten system; Accounts Receivables/Payables and Payroll.

Sales: In the nineteen years prior to 1996, dad had accumulated a full-time residential route, and a frontloader route operating at a maximum of eight to ten hours per week. From 1996 to 1998, with the primary focus on frontloader growth, I expanded this area into a full five-day route. Soon after, an additional frontloader was added to meet the sales demand which now runs five days per week. My sales contributions to the company continue to be a source of significant residual income.

Rolloff Division: Instrumental in developing the current Rolloff Division, which began in 1997 and now offers the tri-county area over 40 construction/demolition containers ranging from 10 to 40 yards and yet another source of income. This equipment also positioned us to expand even further as we entered the scrap metal market.

Waste Transfer Division: The current Waste Transfer Operation located in Trion began in 1998 after I looked at our annual \$144,000 dump fees and focused in on lowering that figure. I met slight opposition from my dad, who had been doing this for over 20 years at the time, but after my negotiations with Waste Management and BFI cut this figure in half, he soon agreed to the expansion. I played a vital role in the planning process, as well as the acquisition of property and equipment, and the sub-contracting of the various phases of construction. The savings alone not only satisfied the principal for this project in five years but also continue to be a significant source of residual income. In addition, I sought and obtained contractual relationships with the Town of Trion and Mount Vernon Mills as charter clients, both of which are still with us today.
